--

ID	Task Name	1st Quarter			2nd Quarter			3rd Quarter			4th Quarter			1st Quarter		
		M-1	M1	M2	M3	M4	M5	M6	M7	M8	M9	M10	M11	M12	M13	M14
1	WP1: Planning of ASV2															
2	T1.1: State of the art of analysis															
3	T1.2: Life cycle specifications															
4	T1.3: Networking															
5	WP2: Investigation and analysis of ASV2															
6	T2.1: Investigation of ASV2 functions															
7	T2.2: Determination of ASV2 service criteria															
8	T2.3: Equipment analysis															
9	T2.4: Networking															
10	WP3: User and equipment requirements															
11	T3.1: User requirements and equipment specifications															
12	T3.2: Networking activities															
13	WP4: ASV2 configuration system															
14	T4.1: Providing equipment and software resources															
15	T4.3: Workshops															
16	WP5: Integration and deployment															
17	T5.1: Platform configuration															
18	T5.2: Assembling astronomical equipment and															
19	T5.3: Networking and training															
20	WP6: Trial planning execution and experiment															
21	T6.1: Equipment testing															
22	T6.2: Software testing															
23	T6.3: Networking															
24	WP7: Dissemination and exploitation															
25	T7.1: Scientific analysis															
26	T7.2: Exploitation plan definition															
27	T7.3: External dissemination															
28	T7.4: Networking, seminars, conferences															
29	WP8: Project management															
30	T8.1: Administrative and financial management															
31	T8.2: Scientific and technical management															
32	T8.3: Knowledge management and quality assurance
